1. Identification

**Product identifier**
SilOil, M80.100/250.03

**Recommended use of the chemical and restrictions on use**

**Use of the substance/mixture**
Heat transfer oil / cold transfer oil

**Uses advised against**
Any non-intended use.

**Details of the supplier of the safety data sheet**

- **Company name:** Huber USA Inc.
- **Street:** 1101 Nowell Rd Suite 110
- **Place:** USA-NC 27607 Raleigh
- **Telephone:** 800-726-4877
- **E-mail:** info@huber-online.com
- **Internet:** www.huber-usa.com

**Emergency phone number:** Toll Free: 1-800-424-9300; Local: +1-703-527-3887

2. Hazard(s) identification

**Classification of the chemical**

29 CFR Part 1910.1200
This mixture is not classified as hazardous in accordance with Regulation 29 CFR 1910.1200(d).

**Label elements**

- **Additional advice on labelling**
  Label elements GHS: None

**Hazards not otherwise classified**
No risks worthy of mention. Please observe the information on the safety data sheet at all times.

3. Composition/information on ingredients

**Mixtures**

- **Chemical characterization**
The product does not contain dangerous substances to be mentioned in Chapter 3.

**Hazardous components**
none (according to 29 CFR 1910.1200(g))

4. First-aid measures

**Description of first aid measures**

**General information**
In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

**After inhalation**
In case of accident by inhalation: remove casualty to fresh air and keep at rest. In case of respiratory tract irritation, consult a physician.

**After contact with skin**
Gently wash with plenty of soap and water. Remove contaminated clothing immediately. In case of skin irritation consult a doctor.
After contact with eyes
Remove contact lenses, if present and easy to do. Continue rinsing. Rinse cautiously with water for several minutes. In case of troubles or persistent symptoms, consult an ophthalmologist.

After ingestion
Rinse mouth thoroughly with water. Let water be drunken in little sips (dilution effect). Do NOT induce vomiting. In all cases of doubt, or when symptoms persist, seek medical advice.

Most important symptoms and effects, both acute and delayed
See sections 2 and 11

Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

5. Fire-fighting measures

Extinguishing media
Suitable extinguishing media

Unsuitable extinguishing media
High power water jet.

Specific hazards arising from the chemical
Can be released in case of fire: Carbon monoxide. Carbon dioxide (CO2). Silicon dioxide (SiO2).

Special protective equipment and precautions for fire-fighters
In case of fire: Wear self-contained breathing apparatus. Wear chemical resistant suit.

Additional information
Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water. Co-ordinate fire-fighting measures to the fire surroundings.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
General advice
See protective measures under point 7 and 8.

For non-emergency personnel
Wear personal protection equipment (refer to section 8).

For emergency responders
No special measures are necessary.

Environmental precautions
Discharge into the environment must be avoided. Prevent spread over a wide area (e.g. by containment or oil barriers).

Methods and material for containment and cleaning up
For containment
Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Treat the recovered material as prescribed in the section on waste disposal.

For cleaning up
Clean contaminated objects and areas thoroughly observing environmental regulations.

Reference to other sections
Safe handling: see section 7
Personal protection equipment: see section 8
Disposal: see section 13

7. Handling and storage
## Precautions for safe handling

### Advice on safe handling
Wear suitable protective clothing. (See section 8.)

### Advice on protection against fire and explosion
Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Take precautionary measures against static discharge. Usual measures for fire prevention.

### Advice on general occupational hygiene
Always close containers tightly after the removal of product. When using do not eat, drink or smoke. Wash hands before breaks and after work.

### Further information on handling
General protection and hygiene measures: See section 8. Vapors / aerosols must be extracted by suction immediately at point of origin.

## Conditions for safe storage, including any incompatibilities

### Requirements for storage rooms and vessels
Keep container tightly closed in a cool, well-ventilated place.

### Hints on joint storage

### Further information on storage conditions
Keep the packing dry and well sealed to prevent contamination and absorption of humidity.
Recommended storage temperature: 20 °C
Protect against: frost. UV-radiation/sunlight. heat. Humidity

## 8. Exposure controls/personal protection

### Control parameters

#### Additional advice on limit values
The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

#### Exposure controls

##### Appropriate engineering controls
Technical measures and the application of suitable work processes have priority over personal protection equipment.
Provide adequate ventilation.

##### Individual protection measures, such as personal protective equipment

#### Eye/face protection
Wear safety glasses; chemical goggles (if splashing is possible). Standards: EN 166 or 29 CFR 1910.133

#### Hand protection
In case of prolonged or frequently repeated skin contact:
Wear suitable gloves.
Suitable material:
FKM (fluororubber). - Thickness of the glove material 0,4 mm
Breakthrough time >= 8 h
Butyl rubber. - Thickness of the glove material 0,5 mm
Breakthrough time >= 8 h
CR (polychloroprenes, Chloroprene rubber). - Thickness of the glove material 0,5 mm
Breakthrough time >= 8 h
NBR (Nitrile rubber). - Thickness of the glove material 0,35 mm
Breakthrough time >= 8 h
PVC (Polyvinyl chloride). - Thickness of the glove material 0,5 mm
Breakthrough time >= 8 h
The selected protective gloves should satisfy the specifications of standards like EN 374. Before using check leak tightness / impermeability. In the case of wanting to use the gloves again, clean them before taking off and air them well.

**Skin protection**
Suitable protective clothing: Lab apron.

**Respiratory protection**
With correct and proper use, and under normal conditions, breathing protection is not required. Respiratory protection necessary at:
Exceeding exposure limit values
Suitable respiratory protective equipment: half-mask with filter EN 149 or 29 CFR 1910.134. The filter class must be suitable for the maximum contaminant concentration (gas/vapour/aerosol/particulates) that may arise when handling the product. If the concentration is exceeded, self-contained breathing apparatus must be used.

**Environmental exposure controls**
No special precautionary measures are necessary.

### 9. Physical and chemical properties

**Other information**

**Information with regard to physical hazard classes**

Explosive properties
none

Sustaining combustion: Not sustaining combustion

Self-ignition temperature
Gas: not determined

Oxidizing properties
none

**Other safety characteristics**
10. Stability and reactivity

Reactivity
No hazardous reactions known.

Chemical stability
Stability: Stable
The product is chemically stable under recommended conditions of storage, use and temperature.

Possibility of hazardous reactions
Hazardous reactions: Will not occur
Refer to chapter 10.5.

Conditions to avoid

Incompatible materials
- Materials to avoid: Oxidizing agents, strong. Reducing agents, strong.

Hazardous decomposition products
- Can be released in case of fire: Carbon monoxide (CO), Carbon dioxide (CO2), Silicon dioxide (SiO2)
- Measurements have shown that at temperatures above approx. 150 °C a small amount of formaldehyde is split off by oxidative decomposition.

11. Toxicological information

Route(s) of Entry
- Ingestion: May be harmful if swallowed. Inhalation: May be harmful if inhaled. Skin contact: May cause irritation. Eye contact: May cause irritation.

Information on toxicological effects
- Toxicokinetics, metabolism and distribution
  No data available.
- Acute toxicity
Based on available data, the classification criteria are not met.

Acute oral toxicity
Parameter: LD50
Exposure route: dermal
Species: Rat
Effective dose: > 5000 mg/kg
By analogy.

Acute dermal toxicity
Parameter: LD50
Exposure route: oral
Species: Rat
Effective dose: > 2000 mg/kg
By analogy.

Acute inhalation toxicity
The product has not been tested.

ATEmix calculated
ATE (oral) > 2000 mg/kg; ATE (dermal) > 2000 mg/kg; ATE (inhalation vapour) > 20 mg/l; ATE (inhalation dust/mist) > 5 mg/l

Irritation and corrosivity
Based on available data, the classification criteria are not met.
Parameter: Skin corrosion/irritation
Species: Rabbit
Exposure time: 24 h
Result: non-irritant
By analogy.

Sensitizing effects
Based on available data, the classification criteria are not met.
Parameter: Skin sensitisation
Species: Guinea pig
Result: no danger of sensitization.
Method: OECD 406

Carcinogenic/mutagenic/toxic effects for reproduction
Based on available data, the classification criteria are not met.
The product has not been tested.

Specific target organ toxicity (STOT) - single exposure
Based on available data, the classification criteria are not met.
The product has not been tested.

Specific target organ toxicity (STOT) - repeated exposure
Based on available data, the classification criteria are not met.
The product has not been tested.

Carcinogenicity (OSHA): No ingredient of this mixture is listed.
Carcinogenicity (IARC): No ingredient of this mixture is listed.
Carcinogenicity (NTP): No ingredient of this mixture is listed.

Aspiration hazard
Based on available data, the classification criteria are not met.
The product has not been tested.

Specific effects in experiment on an animal
No data available.

Information on other hazards
Endocrine disrupting properties
No data available.

12. Ecological information

**Ecotoxicity**

Acute (short-term) fish toxicity
Parameter: LC0
Species: Leuciscus idus (golden orfe)
Effective dose: 200 mg/L
Exposure time: 96 h
By analogy.

Chronic (long-term) fish toxicity
Parameter: NOEC
Species: Oncorhynchus mykiss (Rainbow trout)
Effective dose: > 10000 mg/L
Exposure time: 28 d
By analogy.

Acute (short-term) toxicity to crustacea
Parameter: EC0
Species: Daphnia magna (Big water flea)
Effective dose: > 0.0001 mg/L
Exposure time: 48 h
By analogy.

Acute (short-term) toxicity to aquatic algae and cyanobacteria
Parameter: IC50
Species: Skeletonema costatum
Effective dose: > 100000 mg/L
Exposure time: 72 h
By analogy.

Effects in sewage plants
When low concentrations are discharged correctly into adapted biological sewage treatment plants, interference with the degradation activity of activated sludge is not likely.

**Persistence and degradability**
The product can be eliminated from water by abiotic processes, e.g. adsorption on activated sludge. Not easily bio-degradable (according to OECD-criteria).

**Bioaccumulative potential**
No indication of bioaccumulation potential.

**Mobility in soil**
No data available.

**Endocrine disrupting properties**
This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.
The aforementioned statement applies to substances contained in the product with a minimum content of 0.1%.

**Other adverse effects**
No data available.

**Further information**
Do not allow to enter into surface water or drains.
13. Disposal considerations

Waste treatment methods

Disposal recommendations

Observe in addition any national regulations! Consult the local waste disposal expert about waste disposal.

Non-contaminated packages may be recycled.

RCRA Hazardous wastes (Resource Conservation and Recovery Act)

None

Contaminated packaging

Handle contaminated packages in the same way as the substance itself.

14. Transport information

U.S. DOT 49 CFR 172.101

Proper shipping name:

Not a hazardous material with respect to these transport regulations. &

Not controlled under DOT

Marine transport (IMDG)

UN number or ID number:

No dangerous good in sense of this transport regulation.

UN proper shipping name:

No dangerous good in sense of this transport regulation.

Transport hazard class(es):

No dangerous good in sense of this transport regulation.

Packing group:

No dangerous good in sense of this transport regulation.

Air transport (ICAO-TI/IATA-DGR)

UN number or ID number:

No dangerous good in sense of this transport regulation.

UN proper shipping name:

No dangerous good in sense of this transport regulation.

Transport hazard class(es):

No dangerous good in sense of this transport regulation.

Packing group:

No dangerous good in sense of this transport regulation.

Environmental hazards

ENVIRONMENTALLY HAZARDOUS:

No

Special precautions for user

refer to chapter 6 - 8

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

not relevant

15. Regulatory information

U.S. Regulations

National Inventory TSCA

Poly(oxy(dimethylsilylene)), Siloxanes and Silicones, Me Ph listed in the TSCA inventory 8 (b): (x) active,

Poly(oxy(dimethylsilylene)), Siloxanes and Silicones, Me Ph not listed under TSCA 12(b)

State Regulations

Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65, State of California)

This product can not expose you to chemicals known to the State of California to cause cancer, birth defects or
other reproductive harm.

This mixture is classified as not hazardous according to Regulation 29 CFR Part 1910.1200.

16. Other information

Other data
Classification according 29 CFR Part 1910.1200: - Classification procedure:
Health hazards: Calculation method.
Environmental hazards: Calculation method.
Physical hazards: On basis of test data and / or calculated and / or estimated.

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

(The data for the hazardous ingredients were taken respectively from the last version of the sub-contractor's safety data sheet.)
